Is cured usually by a menicine that will strengther the appetite, aid digestion, keep the liver active and the bowels open. Burdock Blood litters are aguaranteed cure forsick headache. GENERAL DEBILITY.

Dus is one of the very commonest complaints, ousands of people grunt but do not know what alls nem. They are neither sick nor well, yet they suffer all the time. To such people we strongly recommend Burdock Blood Bitters, one or two bettles of which will beget a good appetite, sound sleep, and rid the general debility sufferer of his nervousness and des pendent state of mind. There is certainly nothing quite equal to Burdock Blood Bitters for this trouble CONSUMPTION.

Burdock Blood Bitters will not cure consumption t by keeping the blood strong and free from im rities they will stave off consumption. The statement that the journeymer tailors of the city cannot make over ten dollars a week by ten hours' work, which assertion comes from the tailors them- Filed. selves, appears to meet with contradiction from their employers. Mr. Ed. Williams, gents' furnisher, hailed a BEE scribe as he was hurrying up Farnam Notifying the council that certain hystreet yesperday and requested him to drants ordered are ready for use. "I want you to say," said Mr. Williams, that our tailors are not by any means underpaid. Tailors who work steadily can make fro m

TWENTY-FIVE TO THIRTY DOLLARS a week, but of course the slower ones and poorer ones do not make as much. We pay by the piece and tailors in Omaha are paid better in that way than twothirds of the tailors of the country. The strike which has occurred in Mr. Lindquest's store and in my own is the result | Referred. purely of spite work. The men knew that we were rushed with work just at this season, and thought it an opportune moment to demand higher prices. The men struck only at Lindquest's and here, so the statement that other parties have acceded to the demand for a new scale of prices is also false, because no other firms have been troubled. How to Cleanse Waste Pipes. entific American.

A simple, inexpensive method of clearing the pipe is as follows: Just before retiring at night pour into the pipe enough liquid potash lye of 36 strength to fill "Sample Switchel," Frank Hibbard; the "trap," as it is called or bent portion of the pipe just below the outlet.

Morgan, "P. H. Green; "Frank Slade," About a pint will suffee for a washstand. About a pint will suffice for a washstand, or a quart for a bathtub or kitchen sink Be sure that no water runs into it till next

During the night the lye will convert all of the offal in the pipe into soft soap, and the first current of water in the morning will remove it entirely, and leave the pipe as clean as new. The writer has never had occasion, in over thirty years experience, to make more than two applications of it in any one case.

A remarkable example of the value of this process was that of a large drain pipe which carried off the waste of an extensive country house, near Philadel-

phia, and ran under a beautiful lawn in its front. A gallon of the lye removed all obstruction in a single night, and saved

the necessity of digging up the pipe and disfiguring the greensward of the lawn, as the plumber intended, until advised of this process.

The so-called potash lye sold in small tin cans in the shops is not recommended for this purpose; it is quite commonly misnamed, and is called caustic soda, which makes a hard soap. The lye should be kept in heavy glass bottles or demi-johns, covered with wicker work, and plainly labeled; always under lock when not in actual use. It does not act upon metals, and so does not corrode the pipes as de strong acids.

FOR THE SPECIALIST.

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought mearer and nearer to perfection, and no one man can any longer grasp them all Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the gente-turinary organs need special study more than anyling less, if we would understand and know how reat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a mere enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and aving them from worse than death, is no less a phanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately or humanity, the day is dawning when the false phanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

Plain Facts Plainly Spoken.

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and in binder of the property estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely englaves the victim. Mental and nervous afflictions are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irrascibility of temper and general debility. The boy seeks seclusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Lascivious dreams, emissions and cruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palpitation of the heart, or epilepaic convulsions, are experienced, and the sufferer may fall into

Young Men

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Wasser will guarantee to forfeit 3500 for every case of seminal weakness or private disease of any kind and character which he undertakes to and falls to cure.

Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the blac-der, often accompanied by a slight smarting or burn-ing sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be
found, and sometimes small particles of albumen will
appear, or the color will be of thin milkish hue, again
changing to a dark and torpid appearance. There are
many meny men who die of this difficulty, ignorant of
the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases
and a healthy restoration of the genito-urinary organs.

Relief to the Afflicted.

In medicines, as in science, the specialists are the ones who always comes to the front and accomplish great results. This remark is especially applicable to to Dr. H. Wagner, of this city. He stands at the top of hisp ofession, and the cures he performs for the unforth attention and the cures he performs for the unforth attention would seem wonderful if not properly viewel in the light of scientific acquirements. He is endorsed by the most eminent of the medical faculty.
